UNDER 37 C.F.R. §1.56 AND §1.132

We, Jerald C. Seelig and Lawrence M. Henshaw, hereby declare as follows:

We are the named inventors in the currently pending U.S. patent application serial number 10/824,520 titled, "GAMING BONUS DEVICE AND METHODS OF USE".

We disclose that a version of the QUARTER FRENZY game was disclosed to the public more than one year prior to October 17, 2000 (the effective filing date of the above referenced application). However, we declare that the aforementioned disclosed embodiments of the QUARTER FRENZY game did not include a "binary game" outcome, where the binary game includes two possible outcomes. The aforementioned disclosed QUARTER FRENZY embodiments were similar in design to that shown in Design Patent No. Des. 402,702 (December 15, 1998) simulating a stack of coins and did not disclose "binary game" outcomes (copy enclosed herewith).

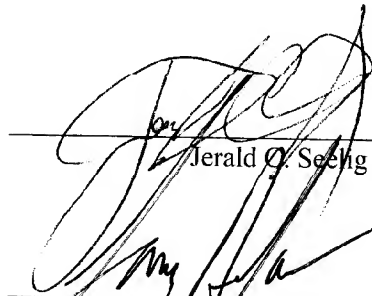

We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these
